

# Delhi Public School Knowledge Park-V

(Class IX)

Session 2021-22

Dear Parents

As per the Govt. guidelines, our school is already conducting the classes in online/ offline mode in school.

The most effective way of learning is by assessing the learners' knowledge and skills completely and genuinely. The comprehension, writing skills and communicative strength will be better assessed through a pen & paper examination. The school has planned to make strategies for developing assessment tools that yield valid measures of student's proficiency. So there is a slight change in the assessment schedule for senior classes, so that the students can be prepared and examined thoroughly for academic excellence and in CBSE exams, as well.
