

Delhi Public School KP V
MCQ Assessment Plan- TERM II
Session 2021-22
Class I and II

Dear Parents

As per the Govt. guidelines, our school is already conducting the classes in online mode in school. Also the students are being evaluated from time to time using the online assessment system.

The most effective way of learning is by assessing the learners' knowledge and skills completely and genuinely. The school has planned strategies for developing assessment tools that yield valid measures of students' proficiency in acquiring basic knowledge and skills in comprehension, writing and communication so that the students walk into their preparatory phase with a strong foundation.

Your co-operation and concern is very important for your child as well as the teachers.

Thanks

The Second Term will include
